

Client Managers

TriOptima is an international financial technology company that is solving some of the most challenging post-trade processing problems in the OTC derivatives market.

With the triReduce multilateral termination service, TriOptima has helped its clients reduce their OTC derivative portfolios through early termination of outstanding trades with a notional amount in excess of EUR 25 trillion, while reconciling over 3 million trades weekly using the triResolve portfolio reconciliation service. Through these unique web-based services, TriOptima's clients are dramatically reducing the cost of managing their OTC derivative portfolios.

With a client base that includes 100 of the world's largest financial institutions, TriOptima maintains offices in London, New York and Singapore in addition to its headquarters in Stockholm. Read more about TriOptima at www.trioptima.com

Currently, TriOptima is hiring professionals to join their Service Management team.
